ABOUT US

As **DESONYX** Brand, it brings together more than 10 years of industry history and experience with its consumers. With its experienced staff, it provides service within 48 hours to every point of Turkey with its regional directorates and warehouses, especially Istanbul headquarters and logistics warehouse. Our company, which directs the industrial detergent and hygiene sector, continues its services with its hygiene group, kitchen group, general cleaning group, laundry group, personal care group with its rich product range, expert staff and working discipline.

It offers professional solutions with ISO Quality Management System certificates and TSE certificates in different brands and adopts a sustainable quality understanding in all units from production to customer service, from training to technical service. It has adopted the principle of providing the best possible quality and service to our customers by taking into account the constantly renewed technology and product quality.

Because our customers are our valuable partners who ensure our continuity in the business world and it is our primary goal to meet their needs. Our forward-looking idea is to continue with the ideal of "presenting a cleaner environment to future generations and we are all responsible for the future". We will continue to be a chemical solution partner.

It's time for proper floor care practices and hygiene!...

Technological developments have developed high-tech production in the construction of the material used in the floor. Developing technology has led to the transition from natural maintenance time-consuming floors to shiny floors that are cleaned even with less maintenance, artificial granite instead of natural granite, very hard and durable ceramic, vitrified floor covering products baked at high temperature instead of natural polished stone mixture.

Floors such as natural stone and marble should be deep cleaned at routine intervals and after this application, we increase the resistance under high traffic by making the surface bright again and making it harder with this brightness.

It should be remembered that good, well-maintained, shiny, clean and hygienic floors are not difficult. The choice of chemicals according to the appropriate surface, the standard of regular routine cleaning improves the quality of floor care in businesses.

The innovation in building construction brought a difference in the development of new construction technologies in floor cladding. Although there is development, it does not prevent the wear and tear on the floors. At the entrance-exit points where human traffic is intense, the intense traffic on square metres causes the floor covering to wear out, and the polishing method does not work on such artificial stones as in natural stones.

For this reason, cleaning, especially dust control, is of great importance and the use of systems to prevent stone abrasion has come to the fore, and the dust in the environment should be removed quickly and floor scratching should be prevented.

In addition, it is useful to use disinfectant products to reduce the microbiological dirt load on the floor in businesses with heavy traffic. Thus, we minimise the risk of cross-contamination.

GENERAL AREA HYGIENE

VEGA CLEAN EXTRA

CONCENTRATED BATHROOM WC CLEANER

It is a strong product that cleans WCs without allowing calcification, greening and bad odours. Keeps WC and washbasins healthy and clean. It eliminates unwanted stains, odours and residues in bathrooms, WCs and urinals. It is economical thanks to its concentrated formula. It is used by diluting at a ratio of 1/5 & 1/10.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

PRO GLASS

CONCENTRATED GLASS CLEANING AGENT

It gives excellent results in cleaning shiny surfaces such as glass mirrors. It leaves no trace. It provides quick drying, leaves a pleasant odour. It is suitable for use with dilution unit.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

VEGA CLEAN

CONCENTRATED HYGIENIC MULTIPURPOSE GENERAL CLEANING AGENT

It is used for cleaning all kinds of washable, wipeable tiles, enamelled, ceramic, wallpaper, wood, bathroom, toilet, armatures and similar surfaces. It does not scratch surfaces, does not dull, easy to rinse. It leaves a pleasant odour to the environment after cleaning. It is suitable for use with dilution unit.

Packing Type :

30 KG / 20 KG / 5 KG

GENERAL AREA HYGIENE

ROOM SMELL

CONCENTRATED AIR CONDITIONER

When sprayed into the air, it provides a long and effective pleasant odour and suppresses bad odours. It is used in hotels, hospitals, institutions and organisations to give freshness in your living environment and to cover bad odours in textile products such as carpets, curtains and laundry.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

VEGA BRIGHT

CRYSTALLISED POLISHING AGENT

It is a high quality crystallised floor polish used for polishing marble, travertine, tile and similar natural stone floors. It is water resistant and does not cause slipperiness.

Packing Type :

30 KG / 20 KG / 5 KG

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

VEGA POLI

POLYMER BASED POLISHING AGENT

It is a polymer based polishing agent used for polishing surfaces such as linoleum, PVC, marble, mosaic. While polishing the surfaces, it protects them from external factors by creating a durable surface. It facilitates daily cleaning of surfaces and prevents re-contamination.

Packing Type :

30 KG / 20 KG / 5 KG

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

GENERAL AREA HYGIENE

POLISH CONTAINING CARE AGENT

It is a perfumed floor cleaning agent containing polish specially formulated for daily cleaning and maintenance of polished surfaces such as PVC, marble, flooring. It is used for daily care and cleaning of polished surfaces such as linoleum, PVC, does not mattify, provides permanent shine.

Packing Type :
30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DIRT AND POLISH REMOVER

It removes worn varnish thanks to its alkaline structure. It removes heavy dirt and oils settled on the floor. It can be used on all washable surfaces except wood and polished surfaces. It is an alkaline, dirt and polish remover product from hard floors. It is suitable for use on PVC, PVA, Epoxy and Stone Floor surfaces.

Packing Type :
30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

CLEANING AND CARE AGENT

It is a foam-controlled, neutral, alcohol-containing, pleasant-smelling, daily cleaning and care agent that can be used on all kinds of floors. It is used to clean daily dirt and grease on floors. It leaves no traces on shiny floors and can also be used on polished surfaces.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14

Packing Type :
30 KG / 20 KG / 5 KG

GENERAL AREA HYGIENE

S-30

CLEANING PRODUCT FOR NORMAL SURFACES

It is a foam-controlled floor cleaning agent specially formulated for vending machines. It is suitable for PVC, marley, stone, concrete, mosaic, epoxy and similar unpolished surfaces. Suitable for daily use in hospitals, shopping centres, schools, public institutions and similar places.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

Packing Type :

30 KG / 20 KG / 5 KG

S-30 PLUS

HEAVY OIL AND DIRT CLEANING PRODUCT

It is a foam-controlled floor cleaning agent specially formulated for vending machines. It is suitable for PVC, marley, stone, concrete, mosaic, epoxy and similar unpolished surfaces. It is effective in removing heavy dirt and oils, tyre marks. It is suitable for use in industrial areas, production facilities and similar places.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

Packing Type :

30 KG / 20 KG / 5 KG

POWER CLEAN F 1

ACIDIC CLEANING AGENT AFTER CONSTRUCTION

It is used for cleaning cement, gypsum and lime residues on brick, granite and stone floors. It is also suitable for cleaning pool surfaces. It is very effective in periodic cleaning of acid resistant stones.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

OIL CLEAN EXTRA

HEAVY DIRT, OIL AND WAX REMOVER

It is a product developed for all washable and wipeable hard surfaces; effective in removing heavy oil, dirt, petrol, grease oil, etc. on hard surfaces such as concrete and asphalt, providing easy and fast removal of the old varnish on the floors and preparing the surface for new varnish, suitable for use in vending machines.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

GENERAL AREA HYGIENE

AVR CARPET

Concentrated Carpet Shampoo and Polisher

It is a concentrated carpet shampoo and polisher that provides permanent cleaning and shine on carpets and upholstery fabrics. It absorbs all organic dirt and leaves no residue. Thanks to its foamy formula, the carpet base remains dry. pH value is suitable for environment and waste management.

Packing Type :
30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

ACTIVE SHINE

Wood Cleaner and Polisher

It is used for cleaning, polishing and maintenance of wooden and parquet surfaces. Thanks to its special formula, it provides effective cleaning on wooden surfaces and prevents dulling.

Packing Type :
30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

VEGA CLEAN PLUS

Concentrated High Perfumed General Cleaning Liquid

It is a general cleaning product that leaves a permanent perfume odour on the cleaned surface. It destroys odours with its perfume. Easily cleans dirt and stains on all washable hard surfaces that are not affected by water.

Packing Type :
30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

GENERAL AREA HYGIENE

VEGA MOB

Dust Collection Chemical

As soon as it is sprayed into the air, it provides a long and effective pleasant smell and suppresses bad odours. It is used in hotels, hospitals, institutions and organisations to give freshness in your living environment and to cover bad odours in textile products such as carpets, curtains and laundry.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

SMELL

Concentrated Space Perfume

It removes unwanted odours from the rooms and leaves a permanent pleasant scent. It is used in special places where odour is important such as homes, workplaces, hospitals, restaurants, factories, toilets, waste pools, garbage trucks, garbage bins and hotels. It is a concentrated product. It is an economical product with easy use. It is a natural product that does not contain propellant gas and is suitable for human and environmental health.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

GRANITE CLEAN GRANITE CLEANING

Our granite floor cleaner product GRANITE CLEAN is a concentrated water-based cleaner. Although granite floors offer an aesthetically beautiful appearance, they can sometimes leave the user in a difficult situation due to stains and dirt. Even if light stains are easily cleaned from granite floors, granite floor cleaner with strong formulation is required to clean heavy oil and other production stains in industrial production areas.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

GENERAL AREA HYGIENE

PVC CLEAN

CONCENTRATED PLASTIC EQUIPMENT CLEANER

It is effective on soot, oil and all kinds of dirt formed on plastic surfaces such as all pvc doors, windows, shower cabinets, plastic tables, chairs, sunbeds, garden furniture, aspirators and refrigerators.

Packing Type :

30 KG / 20 KG / 5 KG

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

PRO GLASS WAX

CONCENTRATED WATER REPELLENT
FOR HARD AND VERTICAL SURFACES

Water repellent and lime inhibitor prevents calcification of shower cabin and glass surfaces. When the surfaces remain wet and the water attached to the surface dries on the surface, it creates water stains. If water stains are not cleaned for a long time, they leave permanent marks on the glass surface. As Pro Glass Wax, you can easily get rid of these and similar problems with the "Water repellent and Lime inhibitor" we offer.

Packing Type :

30 KG / 20 KG / 5 KG

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

GENERAL AREA HYGIENE

GENERAL AREA HYGIENE

Hygiene programmes should be carried out by the team responsible for health and hygiene within the scope of the **OPC** open area cleaning and hygiene programme. In addition to cleaning all areas, critical areas, materials, tools and equipment, cleaning and disinfection method and frequency should be determined in advance. Hygiene control programmes should be posted in the relevant parts of the workplace and the cleaning and disinfection procedures should be marked. Persons responsible for disinfection and cleaning should be determined, disinfectants and cleaning agents should be kept by responsible persons in a separate place from the packaging materials from production and insecticides used in environmental spraying.

CIP Indoor cleaning and hygiene In modern beverage and dairy plants, cleaning methods performed by automatic machines should be preferred instead of manual cleaning, which is bacteriologically inadequate and time consuming. As in manual cleaning, the "automatic cleaning method", which is carried out by circulating the rinsing water and detergent solution in the production line without the need to disassemble the machinery and equipment, is known as **CIP**. In a separate definition, automatic cleaning is the cleaning process carried out by circulating the cleaning liquid in the devices and machines that form closed circuits and are connected to each other.

FARM CHEMICALS

DESONYX SURFACE AL

ALKALINE FOAM CLEANING AGENT

It is suitable for cleaning heavily soiled surfaces and equipment with foam cleaning system. It easily removes heavy oil, dirt, protein and blood from surfaces. Thanks to its effective and stable foam, it provides a more effective cleaning especially on vertical surfaces as it can be suspended.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX SURFACE AC

ACIDIC FOAMY CLEANING AGENT

It is a concentrated acidic cleaning product used in the food industry, milk tanks, tools, equipment, buckets, boilers and cleaning in open areas. It dissolves lime and rust. It is suitable for use with foam application systems and equipment.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX SURFACE AL PLUS

CHLORINATED FOAMY CLEANING AGENT

It is a chlorinated, alkaline cleaning and hygiene product developed for cleaning open areas, floors, tools and equipment in the food sector. It is effective on many stains including animal and vegetable oils, blood and protein based stains.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX C.I.P. AC

ACIDIC CIP CLEANING AGENT

It dissolves milk stones, protein residues and residues such as lime and rust formed by water, used in acidic cleaning of closed systems. It is used for acidic cleaning of equipment such as milking machines and milk collection containers. It is used in the cleaning of closed systems (evaporator, pasteuriser and steriliser), pipes and tanks, equipment through which raw milk passes.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX C.I.P. AL

ALKALINE CIP CLEANING AGENT

It is used effectively in alkaline cleaning of heated and unheated closed system equipment. It is also used for alkaline cleaning of holding and mixing tanks and other equipment. It provides a definite solution for cleaning proteins, carbohydrates and fats in closed systems (evaporators, pasteurisers and sterilisers).

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX C.I.P. AL PLUS

ALKALINE CHLORINATED CIP CLEANING AGENT

It is a chlorinated cleaning product developed for use in closed circuit cleaning in the food sector. Its foam is controlled. It is effective on all kinds of oil and protein residues formed in the closed circuit system. Provides high hygiene standard.

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14

Packing Type :

30 KG / 20 KG / 5 KG

FARM CHEMICALS

DESONYX QAC

QAC BASED CLEANING AGENT

It provides high hygiene with its QAC-based composition used for hygiene purposes after cleaning of floors, open areas, machinery, equipment, benches and surfaces in the food sector.

Packing Type :

30 KG / 20 KG / 5 KG

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

DESONYX COW AC

LACTIC ACID BASED UDDER COATING LIQUID BEFORE MILKING

Hygiene liquids in which the udders are cleaned before milking cows are generally solutions used to ensure udder cleaning and disinfection. These liquids are used to reduce the risk of infection that may occur during milking and to support healthy milk production. The solution is placed directly into the dipping container without dilution. The udder is covered with the foam formed and the udder is contacted with the foam for 30 seconds. The foam is cleaned with water using a separate wiping cloth on each udder.

pH 0 1 2 3 4 5 6 7 8 9 10 11 12 13 14

Packing Type :

30 KG / 20 KG / 5 KG

DESONYX COW IOD

IODINE BASED PRE-MILKING UDDER COATING LIQUID

Hygiene fluids, with which the udders are cleaned before milking the cow, are usually solutions used to ensure udder cleaning and disinfection. These liquids are used to reduce the risk of infection that may occur during milking and to support healthy milk production. The solution is placed directly into the dipping container without dilution. The udder is covered with the foam formed and the udder is contacted with the foam for 30 seconds. The foam is cleaned with water using a separate wiping cloth on each udder.

Packing Type :

30 KG / 20 KG / 5 KG

---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX THEN COW AC

LACTIC ACID BASED POST MILKING UDDER COATING LIQUID

The solution is specially prepared by considering the physiology of the udders. It protects the applied surface. It does not make coating like silicone. Therefore, it does not cause fungal disease in the udder. Since there is no coating on the surface of the breast, you do not need to treat the breast again. It is taken into the dipping container and used directly. The consumption per cow in one application is maximum 4-6 grams.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

DESONYX THEN COW IOD

IODINE BASED POST MILKING UDDER COATING LIQUID

Iodine-based post-milking viscous udder care solution. It is a post-milking dipping disinfectant containing 5.5 % active iodine that acts quickly and kills all bacteria and fungi that cause mastitis in a short time. The solution is specially prepared considering the physiology of the udders.

Packing Type :

30 KG / 20 KG / 5 KG

FARM CHEMICALS

DESONYX NAIL

FOOT AND NAIL CARE SOLUTION

DESONYX NAIL is used only externally as a foot antiseptic for nail and skin care in cattle, sheep and horses. Various reasons such as genetics, exercise, season, pregnancy, lactation, age, shelter type are effective on foot health. The incidence of foot diseases increases and the productivity of animals decreases, especially in enterprises with inappropriate shelter hygiene, layout and floor condition. DESONYX NAIL is diluted 3-5% in the foot and nail care of cattle, sheep and horses and held 2-3 times a day for 1-2 minutes depending on the severity of the nail problem of the animals or applied to the nails of the animals with the help of a brush.

* pH value cannot be measured

Packing Type :

30 KG / 20 KG / 5 KG

DESONYX SURFACE AL EXTRA

ALKALINE FOAM-FREE OPEN AREA CLEANING

It is a chlorinated, alkaline, foam-free cleaning product used in open area cleaning in the food industry. It is used for cleaning animal and vegetable fat, blood and proteins on floors, floors and walls, belts and other equipment in large and small slaughterhouses, dairy industry, vegetable fruit and beverage industry, poultry slaughterhouses and fish processing plants. The sodium hypochlorite it contains is effective in cleaning some stains by breaking down proteins. It does not damage materials such as stainless steel, plastic ceramics at recommended dosages.

pH

FARM CHEMICALS

STAFF CARE GROUP

FLASH PLUS

Concentrated Skin Cleaning Liquid

It is a reverse viscosity skin cleansing liquid used for hand, face and body cleaning of the personnel working in factories, foundries, rubber works, printing houses, factories in industrial environments with all kinds of intense work dirt. Since it is a concentrated product, it is used by diluting with water. Thanks to its natural additives such as lanolin and glycerin, it has tissue repairing and skin regenerating properties as well as oil and dirt cleaning.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

FLASH WAX

Granulated Heavy Oil and Dirt Remover Cream

Flash Wax is effective in cleaning heavy oily hands. It does not leave the skin oil-free because it contains lanolin. It does not irritate, it cleans deeply thanks to the granules in its formula, it shows maximum effect by entering and cleaning even the cracks in the hand. It does not contain caustic, acid and ammonia. It is economical, the minimum amount is enough to remove all the oil on the hand. It has a pleasant odour.

Packing Type :

30 KG / 20 KG / 5 KG

pH

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14
---	---	---	---	---	---	---	---	---	---	----	----	----	----	----

STAFF CARE GROUP

BODY GUARD

Skin Protective Concealed Gloves

Body Guard creates an effective protective film layer between the skin and the active working material. Thus, there is no dirt absorption on the skin and it is easily washed with water. It reduces contact with working materials harmful to the skin. It does not affect skin functions. It protects your skin during work with oil, grease, graphite, bitumen products, paints, varnishes, adhesives, artificial resins, polyester, silicone, dust and glass. It forms a dry, elastic, touch-resistant protective film.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

DESONYX HAND

Alcohol Based Hand Cleaning Liquid

Thanks to its active substance, it interacts fast. It dries quickly. It is formulated for the food industry. It has a soft effect. It does not dry the skin. Thanks to its special formula, the drying effect of the alcohol in its content has been eliminated. It provides skin softness with the ability to keep the moisture of the hands. There is no harm in its use especially for sensitive skin. It is an alcohol-based hygiene product.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

DESONYX HAND JEL

Alcohol Based Hand Cleaning Gel

It is an alcohol-based hygienic hand cleaning gel that does not require rinsing formulated for use in areas requiring high hygiene standards. It saves time and provides ease of use. It does not cause skin irritation and does not dry the skin with its glycerin-containing formula.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

DESONYX QAC

Concentrated General Surface and Ambient Cleaner

Desonyx QAC cleans, disinfects and deodorises all surfaces where bacteria and viruses come into contact. It is used for cleaning and disinfecting all surfaces where water can be used – floors, walls, woodwork, equipment, furniture, ceilings, toilets and kitchens in hospitals, industrial plants, schools, restaurants, municipal buildings, hotels, food processing plants and homes. It does not require rinsing, leaves no soap foam.

Packing Type :

30 KG / 20 KG / 5 KG

* pH value cannot be measured

DESONYX FOOD

Concentrated Food Hygiene Liquid

Desonyx Food contains hypochlorous, one of the most effective new generation cleaning fluids for the hygiene of vegetables, fruits, salads and food contact surfaces. Desonyx Food destroys 99.99% of harmful pathogens within seconds and turns into natural water, thus leaving no residue on the food and surfaces where it is applied. Desonyx Food will be indispensable in your kitchen with its superior quality. Desonyx Food is the most effective assistant in protecting our health with an effective cleaning in the hygiene of our kitchen and your food. While safely consuming the fruits, vegetables and salads you wash, you can safely hygiene the kitchen equipment and surfaces where you prepare your food without using products containing heavy metals and harmful chemicals.
